DHRUV GUPTA

Python Full Stack Developer | Generative AI

Bangalore, India | dhruvg753@gmail.com | +91 8864859738 | GitHub | LinkedIn | Portfolio

PROFESSIONAL SUMMARY

Python Full Stack Developer with strong expertise in building scalable **Backend Systems** (Python, Django REST Framework), architecting **Relational Databases** (PostgreSQL, MySQL), and developing interactive user interfaces (ReactJS, JavaScript). Proficient in delivering robust **RESTful APIs**, end-to-end **CRUD architectures**, and CI/CD pipelines, with practical application in **Machine Learning** and **Gen AI** workflows (LLMs, RAG, Prompt Engineering).

TECHNICAL SKILLS

Languages: Python, SQL, JavaScript (ES6+), HTML5, CSS3
Backend: Python, **Django REST Framework (DRF)**, RESTful APIs, **JWT Authentication**
Frontend: ReactJS (Hooks, Context API, React Router), **Vite**, SCSS, TailwindCSS, Bootstrap, Axios
Databases: PostgreSQL, **MySQL**, Schema Design, Relational Modeling, DDL/DML Operations
Data Science & ML: Pandas, **NumPy**, Scikit-learn, Matplotlib, Seaborn, Clustering, SMOTE, **Streamlit**
AI & GenAI: NLP, **Large Language Models (LLMs)**, RAG, Prompt Engineering, LangChain Basics
DevOps & Tools: Git, **GitHub**, GitHub Actions (CI/CD), Postman, Linux (Ubuntu), Netlify, Vercel, VS Code

EXPERIENCE

Full Stack Developer Intern - CRM Software *Apr 2026 - Sep 2026*
BDreamz Global Solutions - Remote

- Developed and enhanced **CRM** for a coaching institute using **React**, **Django REST Framework**, and **MySQL**.
- Worked on the **Student Management** Module, implementing student registration, profile management, course enrollment, and student data workflows.
- Developed the **Lead Management** Module to manage prospective students, lead status, and conversion tracking.
- Built and integrated **RESTful APIs** using **Django REST Framework** for seamless communication between the **React frontend** and **backend** services.
- Designed and optimized **MySQL** database models, queries, and relationships to manage student and courses.
- Collaborated with the development team to **debug** issues, implement new **features**, test **APIs**, and improve overall **CRM** functionality and user experience.

PROJECTS

Netflix Clone – Full Stack Streaming Platform | Live | GitHub *Sep 2026*
Python | Django REST Framework | JavaScript | GitHub Actions | CI/CD | CORS

- Architected a full-stack media streaming web platform using **Python** and **Django REST Framework**, implementing modular endpoint routing and secure configuration via python-decouple.
- Configured robust cross-origin resource sharing using **django-cors-headers** to enable secure, asynchronous API calls between the client interface and backend services.
- Integrated an automated **CI/CD pipeline** via **GitHub Actions** (`ci.yml`) to execute build validation, code linting, and unit tests on every pull request and push.
- Optimized media asset distribution and relational database query lookups, ensuring sub-second catalog retrieval and seamless video playback states.

Real-Time Chat Application | Live | GitHub *Jul 2026 - Aug 2026*
ReactJS | Firebase Firestore | Firebase Auth | SCSS | React Router

- Built a real-time messaging application with **ReactJS** and **Firebase Firestore**, utilizing snapshot stream listeners for immediate bidirectional synchronization without polling overhead.
- Implemented token-based authentication and role-guarded route protections utilizing **Firebase** and **React Router**.
- Engineered granular CRUD functionality enabling message editing, hard deletions, and emoji reactions, complemented by an SCSS theme toggle and user presence tracking; deployed on **Netlify**.

Personal Portfolio Website | Live | GitHub *Aug 2025 - Mar 2026*
HTML5 | CSS3 | Vanilla JavaScript | Performance Optimization

- Developed a fully responsive portfolio showcase leveraging semantic **HTML5**, modern **CSS3** animations, and asynchronous **JavaScript** DOM interactions.
- Enhanced web performance and Core Web Vitals by auditing asset delivery, deferring non-critical scripts.

EDUCATION

B.Tech in Computer Science & Engineering 2021 - 2025
Future Institute of Engineering and Technology, Bareilly, UP | CGPA: 7.54

Class XII – PCM (CBSE) 2020 - 2021
Blooming Dale School, Budaun, UP | Percentage: 72.20%

Class X (CBSE) 2018 - 2019
Florence Nightingale Public School, Budaun, UP | Percentage: 65.40%

CERTIFICATIONS & TRAINING

Python Full Stack Development – Besant Technologies, Bangalore *Apr 2026 - Oct 2026*
Generative AI & Machine Learning – Evarcity eLearning, Bangalore *Aug 2026 - Dec 2026*
