

DHRUV GUPTA

Python Full Stack Developer

Bangalore, India | dhruvg753@gmail.com | +91 8864859738 | github.com/Dhruv1Gupta | linkedin.com/in/dhruv-gupta289 | Portfolio

Professional Summary

Results-driven Python Full Stack Developer with hands-on experience in Backend Development (Python, Django REST Framework), Relational Database Design (MySQL, PostgreSQL), and Responsive Frontend Development (HTML5, CSS3, JavaScript, ReactJS). Proven ability to build and optimize REST APIs, implement data-integrity solutions, and deliver production-quality CRUD applications. Passionate about clean code, continuous learning, and collaborative software engineering.

Technical Skills

Languages	Python, SQL, JavaScript, HTML5, CSS3
Backend	Python, Django REST Framework, REST APIs, Authentication, CRUD, MVC
Frontend	ReactJS, Bootstrap, Responsive Web Design, DOM Manipulation
Databases	MySQL, PostgreSQL, Database Design, DDL/DML, Query Optimization
Tools & Platforms	Git, GitHub, VS Code, Postman, Linux (Ubuntu)
Concepts	OOP, Version Control, API Development, Data Integrity, Web Performance

Projects

Student Management System

May 2026 - Jun 2026

Python / MySQL / CRUD / OOP / Database Design

- Engineered a console-based CRUD application in Python with MySQL to manage full student-record lifecycle (add, view, update, delete, search) for scalable data management.
- Designed a normalized relational schema with primary-key and CHECK constraints on age and marks fields, guaranteeing end-to-end data integrity.
- Built input-validation, exception-handling, and automated file-backup (TXT export) modules, improving data reliability and auditability.
- Applied OOP principles to architect reusable, modular code, reducing redundancy by an estimated 30%.

Superstore Sales Analysis

May 2026 - Jun 2026

MySQL / SQL / DDL/DML / Data Analysis / Query Optimization

- Architected and managed a MySQL relational database for large-scale retail sales data with full DDL/DML operations: table creation, constraints, indexing, and CRUD transactions.
- Authored 40+ optimized SQL queries — filtering, aggregation, subqueries, and pattern matching — to surface actionable insights on sales, profit, and regional performance.
- Leveraged JOINS, set operations, and views to merge multi-table data sets, significantly reducing query complexity and improving analytical efficiency.

Personal Portfolio Website

Aug 2025 - Mar 2026

HTML5 / CSS3 / JavaScript / Responsive Design / Web Performance

- Developed a fully responsive portfolio website from scratch to showcase projects and skills, targeting visibility among recruiters and hiring managers.
- Integrated interactive JavaScript features — smooth scrolling, modal dialogs, and CSS animations — enhancing UX and on-page engagement.
- Optimized page-load performance via asset compression, deferred script loading, and elimination of render-blocking resources, achieving faster rendering times.

Education

B.Tech — Computer Science & Engineering

Future Institute of Engineering and Technology, Bareilly, UP

2021 - 2025

CGPA: 7.54

Class XII — PCM (CBSE)

Blooming Dale School, Budaun, UP

2020 - 2021

72.20%

Class X (CBSE)

Florence Nightingale Public School, Budaun, UP

2018 - 2019

65.40%

Certifications

Certified Python Full Stack Development - Besant Technologies, Bangalore

2026

Core coverage: Python, Django REST Framework, MySQL, PostgreSQL, HTML5, CSS3, JavaScript, ReactJS, Bootstrap, Git, Linux (Ubuntu).
