

DHRUV GUPTA

Python Full Stack Developer (Generative AI)

Bangalore, India | dhruvg753@gmail.com | +91 8864859738 | github.com/Dhruv1Gupta | linkedin.com/in/dhruv-gupta289
| [Portfolio](#)

Professional Summary

Python Full Stack Developer with hands-on experience in **Backend Development** (Python, Django REST Framework), **Relational Database Design** (MySQL, PostgreSQL), **Responsive Frontend Development** (ReactJS, JavaScript), and growing expertise in **Generative AI** (LLMs, RAG, Prompt Engineering). Proven ability to build and optimize **REST APIs** and deliver production-quality **CRUD applications**.

Technical Skills

Languages: Python, SQL, JavaScript, HTML5, CSS3

Backend: Python, Django REST Framework, REST APIs, **JWT Authentication**, CRUD, MVC

Frontend: ReactJS (Hooks, Context API, React Router), **Vite**, SCSS, **Axios**, Bootstrap, TailwindCSS, Responsive Web Design, DOM Manipulation

Databases: MySQL, PostgreSQL, Database Design, DDL/DML, Query Optimization

AI/ML & GenAI (In Training): Python (NumPy, Pandas, scikit-learn), NLP, **Generative AI**, LLMs, Prompt Engineering, **RAG**

Data Science & ML: Pandas, NumPy, Matplotlib, Seaborn, **scikit-learn**, Regression (Linear, Multiple, Logistic), Classification, Decision Tree, Random Forest, **K-Means Clustering**, Feature Engineering, One-Hot/Label Encoding, Standard Scaler, Model Evaluation (Confusion Matrix, Precision, Recall, F1-Score), SMOTE, **Streamlit**

Tools & Platforms: Git, GitHub, VS Code, Postman, Netlify, Linux (Ubuntu)

Concepts: OOP, Version Control, API Development, Data Integrity, Web Performance

Projects

Netflix Clone – Streaming Web App | [Live](#) | [GitHub](#)

Sep 2026

ReactJS | Vite | SCSS | Axios | React Router | Context API | JWT | REST API

- Built a responsive **Netflix-style streaming UI** in **ReactJS** (**Vite**, **SCSS**) consuming a **Django REST API**: hero banner, genre-wise scrolling rows, live search, multi-genre filters, sorting, and skeleton loading states.
- Implemented **JWT authentication** (signup, login, logout) with **Axios interceptors** that silently refresh expired access tokens and retry failed requests once; secured admin and edit pages with **protected routes** and **Context API** state.
- Developed full movie **CRUD** with a shared add/edit form, client-side validation, delete-confirmation modal, toast notifications, and an admin table with search and **CSV export**.
- Added watchlist, recently viewed, star ratings, dark/light theme, and offline banner using **localStorage**; handled free-tier backend cold starts with loading and error states.

Chat Application | [Live](#) | [GitHub](#)

Jul 2026 – Aug 2026

ReactJS | Firebase (Auth & Firestore) | React Router | SCSS

- Built a **real-time one-to-one messaging** web app using **ReactJS** and **Firebase Firestore**, leveraging live snapshot listeners to deliver instant message updates without page reloads.
- Implemented secure **authentication** and protected routing with **Firebase Auth** and **React Router**, restricting app access to authenticated users only.
- Built message editing, deletion, and emoji reactions via structured **Firestore CRUD** operations; designed a responsive, theme-switchable UI with **SCSS** and live presence tracking; deployed on **Netlify**.

Personal Portfolio Website | [Live](#) | [GitHub](#)

Aug 2025 – Mar 2026

HTML5 | CSS3 | JavaScript | Responsive Design

- Developed a fully **responsive portfolio website** from scratch with interactive **JavaScript** features – smooth scrolling, modal dialogs, CSS animations – to enhance UX and on-page engagement.
- **Optimized page-load performance** via asset compression, deferred script loading, and elimination of render-blocking resources, achieving faster rendering times.

Education

B.Tech — Computer Science & Engineering

2021 – 2025

Future Institute of Engineering and Technology, Bareilly, UP | CGPA: 7.54

Class XII — PCM (CBSE), Blooming Dale School, Budaun, UP | 72.20%

2020 – 2021

Class X (CBSE), Florence Nightingale Public School, Budaun, UP | 65.40%

2018 – 2019

Certifications & Training

Python Full Stack Development – Besant Technologies, Bangalore

Apr 2026 – Oct 2026

Core coverage: Python, Django REST Framework, MySQL, PostgreSQL, HTML5, CSS3, JavaScript, ReactJS, Bootstrap, TailwindCSS, Git, GitHub, Ubuntu.

Generative AI – Evarcity Elearning, Bangalore

Aug 2026 – Dec 2026

Core coverage: NLP, Deep Learning (PyTorch), LLMs, Prompt Engineering, AI Agents (LangChain, AutoGen), RAG, LLMOps. Data Science & ML: Pandas, NumPy, Matplotlib, Seaborn, scikit-learn, Regression, Classification, Decision Tree, Random Forest, K-Means Clustering, Feature Engineering, Model Evaluation Metrics, SMOTE, Streamlit deployment.
